

2022 GRADES 3–7 CAMP DESCRIPTIONS

WEEK 1: JUNE 13–17

3D Printing

Become a digital creator! Learn how to design, model, and 3D-print digital objects, focusing on practical design.

Action & Adventure

Conquer the climbing wall and traverse the high ropes course in the Forsyth Adventure Center! Strengthen your teambuilding skills through themed games and activities.

Beginner Rocketry

Design and build your own model rocket! Learn about velocity and aerodynamics during construction. Finally, launch your rocket in Forest Park to see how high and far it will fly!

DIY Accessories

Create your own wearable accessories! Learn how to string jewelry, tie-dye tote bags, and more. It's a fashionably fun time!

WEEK 2: JUNE 20–24

Extreme Bike Trek

Take a serious cycling trek through town! Hone your skills as an experienced cyclist with daily challenges. Conquer the open road and bike your way to an exciting new destination each day.

Global Cuisine

Embark on a global culinary adventure with plenty of sampling and tasting along the way! Bring your experiences back to the kitchen to recreate your favorite dishes and delights.

Kick, Dodge, & Throw

Kick your dexterity up a notch! Practice your skills, strategy, and teambuilding with kickball and dodgeball battles on the field.

2022 GRADES 3–7 CAMP DESCRIPTIONS

WEEK 3: JUNE 27–JULY 1

Destination Imagination

Pack your bags AND your imagination! Travel to cherished fantasy destinations, including Hogwarts, Oz, Narnia, and more. No passports required!

Engineering Adventure

Explore the world's engineering marvels! Analyze, design, and construct machines, games, and structures all week long.

Soccer

Hone your soccer skills with daily scrimmages and drills! Practice the fundamentals and learn more about game rules and strategy.

WEEK 4: JULY 5–8 [NO CAMP ON JULY 4]

Advanced Rocketry

Expand on everything you learned in Beginner Rocketry to create a more advanced model rocket. Launch your rocket in Forest Park to see how high and far it will fly!

Archery

Channel your inner Katniss Everdeen and explore the art and rules of archery. Practice the discipline and concentration needed to excel in this niche sport.

Books & Board Games

Beat the summer heat with a chill week of books and board games! Add to your summer reading list and team up with friends to play classic board games—or learn a new one!

Scratch Design

Learn how to create your own interactive stories, games, and animations using Scratch, the largest free coding community for kids.

WEEK 5: JULY 11–15

2022 GRADES 3–7 CAMP DESCRIPTIONS

Art Studio

Explore various techniques and build your skills in drawing, painting, mixed-media, and collage in an open-studio format. Bring out your inner artist, express yourself, and showcase your creativity!

Baseball

Break out and break in your baseball glove! Practice fielding, throwing, batting, and pitching, and engage in friendly competition on the diamond!

Extreme STEAM

Campers will enjoy a variety of exciting challenges that involve science, technology, engineering, art, and math and encourage hands-on innovation, creative planning, and team collaboration.

WEEK 6: JULY 18–22

Big Kid Bikes

Hit the streets — on wheels! Learn and practice bike safety and proper biking etiquette in the neighborhood around Forsyth. Must be able to ride a two-wheeler independently.

Nothing But Nets

Jump into net sports and games! Play classic sports like basketball, volleyball, and tennis, and try your hand at more obscure games like badminton and pickleball. Anything with a net is fair game!

Short Circuit

Delve into the world of electrical engineering! Use the engineering design process and our makerspaces to brainstorm, plan, design, and create your own working circuit.

2022 GRADES 3–7 CAMP DESCRIPTIONS

WEEK 7: JULY 25–29

Blocks, Paper, Scissors

Become a 3D artist! Build structures of your own design using blocks, interlocking bricks, paper, cardboard, and found objects. Build it tall, build it small, come to camp, and build it all!

Have a Ball

Tap into your competitive side with classic and unique ball sports, including crossnet, spikeball, table tennis, and more. Use your imagination to create new ball games of your very own!

Summer Scientists

Question like a scientist, design like a technologist, build like an engineer, create like an artist, deduce like a mathematician, and—most importantly—play like a kid! Conduct experiments, brew concoctions, get messy, and have a blast!

WEEK 8: AUGUST 1–5

Action & Adventure

Conquer the climbing wall and traverse the high ropes course in the Forsyth Adventure Center! Strengthen your teambuilding skills through themed games and activities.

Old-Fashioned Crafts

Travel back in time with classic crafts from the days of yesteryear! Learn about and create lava lamps, macramé, Pet Rocks, Shrinky Dinks, tie-dye, and more.

Photography

Sharpen your eye for photography! Capture the architecture and natural environment on Forsyth's campus and surrounding neighborhood. Curate your favorites for a capsule exhibit! Must bring own camera (manual, digital, or smartphone) and all accessories.
